

The Federal Communications Commission

Dear The Federal Communications Commission,

Please do not support the flat fee proposal. I ask that you reject a flat fee proposal. I went to a tract phone service because that is all that I can afford for safety on the road. I rarely use it for conversation except to notify my family where I am on the road.

This is unfair! I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Rosemary Schuette
